

Cloud Based Fog-Edge Data Center Thermal Monitoring System

Abhishek Bheemaraddi Mudaraddi

Student ID : 24221163

NCI, Ireland

Why ?

- **Prevents Overheating and Hardware Damage:**
- **Ensures Uptime and Prevents Data Loss**
- **Identifies Hotspots and Airflow Issues**
- **Improves Energy Efficiency and Reduces Costs**
- **Extends Equipment Lifespan**
- **Regulatory Compliance and Safety**

Sensors !?

Rack
